September 2018

Dear MCE Employees and Stakeholders:

On behalf of Maryland Correctional Enterprises (MCE), it is indeed a pleasure to present a copy of the Strategic Business Plan Fiscal Years 2019-2021 for your review. The Plan was developed by MCE employees, facilitated by the DPSCS Police and Correctional Training Commissions, and is based on the goals of: maintaining a self-supporting status, increasing inmate employment, increasing customer satisfaction, improving organizational excellence, and providing support and services for successful inmate transition to the community.

In May 2001, the first MFR Seminar was held at the Maritime Institute of Technology to review the first Business Plan published in September 2000 and to prepare for the next edition. MCE has held to this schedule ever since.

The 2018 MFR Seminar occurred on May 15, 2018. This year's seminar focused on preselected strategies to encourage participation, teambuilding, and promoting interdepartmental communication throughout MCE.

2018 MFR Participants

Facilitators: Jennifer Beskid and Darla Rothman
(DPSCS Police and Correctional Training Commissions)

Michelle Baldwin	Todd Deak	Ashley Lohr	Stephen Sanders
Donna Beck	James Jackson	Thomas McBurney	Steve Shiloh
Cliff Benser	Dave Jenkins	Jeff Peterson	Joe Sommerville
Engrican Budoy	James John	Matt Robinson	Chris Stouffer
Stephen Compton	Scott Johnson	Mark Rowley	

Stability has been established in working towards attainment of the long range Goals and Objectives by the accomplishment of the shorter term Strategies. However, success of the plan can only be achieved through cooperation and teamwork. Any questions or comments may be directed to myself, Cliff Benser (410-540-5404) or Tom McBurney (410-540-5439).

Best Regards,

Steve Shiloh

Strategic Business Plan FY 2019 - 2021

MISSION STATEMENT

The mission of **Maryland Correctional Enterprises (MCE)** is to provide structured employment and training activities for offenders in order to improve employability upon release, to enhance safety and security, to reduce prison idleness, to produce quality, saleable goods and services, and to be a financially self-supporting State agency.

VISION STATEMENT

Transforming lives through mentoring, providing marketable skills, and instilling positive work ethics to contribute to a safer community.

VALUES STATEMENT

The following beliefs (core principles) support our mission and vision statements:

Quality and Customers - We are committed to provide our customers with the highest quality products and services in a timely manner within all areas of Maryland Correctional Enterprises.

Environmentally Friendly – We are committed to improving our environmental awareness in all areas of Maryland Correctional Enterprises.

Financially Successful - We will manage our financial resources (assets, profits, sales, cash, investments) to support existing operations and future expansion.

Transition Services - We are committed to quality training and preparation of our inmate work force to enhance their employment opportunities upon release.

Teamwork and Communications - We value each employee as an important asset in helping to achieve the mission of the agency through teamwork and effective communications.

Professionalism - We value effective leadership and strive for impartiality and fairness in the workplace. We encourage personal and professional development. We recognize and reward dedication and commitment to excellence.

Strategy #: 1.1.1.3	Identify, share and implement quality improvements and cost reduction/avoidance programs each year.
Performance Measures	Implement, share and document cost reduction/avoidance and report quality assurance programs per fiscal year.
Chairperson	Operations Manager
Members	Chief Operating Officer, Director of Sales, Regional Managers, IT Manager, Plant Managers

Summary of Strategy Results

1. Quality Improvement: Plant 124 uses a powder coat paint system, oven and conveyor process to apply the paint finish to its products. Integral components have failed over time due to the age of the equipment. Larger products such as the Board of Election, Election Carts have put a strain on the conveyor system. A combination of these factors has created quality concerns related to paint finish. To remedy the situation, the oven and conveyor system have been refurbished. Our Plant Manager has designed and incorporated an enclosed and covered spray booth area to reduce or eliminate environmental contaminants from entering the powder paint spray process. The new and improved conveyor chain eliminates chain related break downs and thus eliminates the potential for dirt and contaminants from dropping on the painted surfaces while traveling through the oven. A variable speed conveyor control allows our staff to bake the powder paint for the correct amount of time. The new ignitors and controls will provide for consistent, specific and continuous heat and eliminate faults that cause production interruptions and quality concerns. The result is a perfect painted surface free of dirt and paint mars, a reduction in paint repairs, an increase in our First Time Pass Rate, and happy customers.
2. MCE is continuing to monitor quality in all areas of production.

During the 4th Quarter, the process of refurbishing, updating and reprogramming the CNC router began in Plant # 146. MCE is currently updating and uploading all furniture software. Once complete, MCE will be able to program the specifications for each product line of furniture top that we produce. This will ensure consistent quality production 100% of the time. Operations that were previously performed by several machines will be accomplished by this CNC, therefore increasing the efficiency of the operation by eliminating product travel and operator walk time. Additional quality checks will be created to monitor the output of the machine before the product is transferred to the next phase of the production process. MCE will reduce cost by building it right the first time.

Strategy #: 1.1.1.4	Update standard costs and selling prices on an annual basis.
Performance Measures	Annually review and audit business unit standard costs and selling prices for profitability.
Chairperson	Chief Financial Officer
Members	Cost Accountant, Director of Sales, Chief Operating Officer, Director of Marketing, Senior Accountant, Purchasing Manager.

Summary of Strategy Results

1. During the fourth quarter of FY18, the Finance Department completed standard costs and selling price analyses as follows:

Upholstery Plant #122: Individual guest chairs series:

- Item nos. 122138xxx -122138xxx

Sign Plant #111: Picture Frames

- Item nos. 111FR006; 111FR007 and 111FR0026

Results were that the upholstery items were within the standard gross profit range while the picture frames were under the expected gross profits and therefore discontinued.

In addition to the above, the pricing for all items listed in the FY19 catalog were successfully updated.

Strategy #: 1.1.1.5	Network with other state correctional industries to identify best practices and additional venture opportunities.
Performance Measures	Compile an annual FY report identifying relevant best practices & additional venture opportunities.
Chairperson	Chief Development Officer
Members	Operations Manager, Chief Operating Officer, Chief Administrative Officer, Regional Managers, Director of Marketing, Plant Managers, Director of Sales, Guest (other state rep).

Summary of Strategy Results

1. MCE will continue to review the following items produced by the National Correctional Industries Association (NCIA): Annual Directory, Quarterly News Publications, and Webinars. MCE's Chief Administrative Officer is also a member of the NCIA Board of Directors.
2. MCE received the annual NCIA Directory in January. MCE was again among the top ten correctional industries in the nation ranking 8th in regards to sales and 6th in regards to the number of inmates employed.
3. The MCE Projects Consultant reviewed the Directory for future opportunities. When staffing permits; MCE will investigate feasibility of additional certificate based programming.
4. Mark Rowley, Todd Deak, and Stephen Sanders attended the NCIA National Conference in Atlanta from April 15-17. Stephen Sanders was awarded an Honor Role Award for his successes with MCE. The attendees explored new venture opportunities and investigated current practices for inmate savings programs.
5. MCE Staff participated in a "Managing Transportation and Logistics in CI" Webinar on May 23rd. MASSCOR discussed a newly opened optical lab which has quickly become a top revenue generator. MCE will investigate this opportunity and feasibility.

Objective #: 1.2.1	Continue to achieve annual sales of at least \$50,000,000.
Strategy #: 1.2.1.1	Biennially* (beginning January 2020) review and update the Marketing and Sales Plan. *Biennial means every other year.
Performance Measures	Sales achieved in each fiscal year.

NOTES: ¹ MCE was forced to close its Upholstery Plant at NBCI in October 2013 due to the continuing Lock-down situation at that Institution. This action resulted in the loss of 25 inmate positions.

² MCE has a current vacancy rate of 25%. Recruiting difficulties negatively affected FY18 inmate employment.

Strategy #: 2.1.1.2	Develop private industry partnerships.
Performance Measures	Pursue new PIE partnerships each fiscal year.
Chairperson	Chief Development Officer
Members	Executive Director of Management Council, Chief Operating Officer, Projects Consultant, Administrator I, Appropriate Plant Manager(s), Operations Manager

Summary of Strategy Results

1. MCE actively pursued the establishment of a PIECP program at Metal Plant 124 with Total Electric, Inc. The program consists of assembling and packaging electrical boxes. NCIA and the BJA were notified of the intent to start a new PIECP project.
2. The Total Electric, Inc. PIECP program began on July 25, 2018 and employs eight men at Metal I.

Goal #: 3.1	To increase customer satisfaction.
Objective #: 3.1.1	Determine customer satisfaction factors and take appropriate steps to address these issues.
Strategy #: 3.1.1.1	Annual customer survey to identify areas of customer needs.
Performance Measures	Survey results and analysis annually.
Chairperson	Director of Marketing
Members	Customer Service Manager, IT Manager, Regional Managers, Sales Manager, Director of Sales, Operations Manager, Warehouse Managers

Summary of Strategy Results

The following graph represents findings from the Fiscal Year 2018 Customer Satisfaction Survey. Data was collected from 130 participants (Survey was closed 6/30/18).

Overall Customer Ratings for MCE Products and Services – Fiscal Year 2018

The majority of respondents rated MCE **GOOD or EXCELLENT** in Customer Satisfaction, Prices, Quality and Delivery Time.

Objective #: 3.1.2	Continue to improve MCE's delivery time.
Strategy #: 3.1.2.1	Weekly evaluation of overdue orders.
Performance Measures	Actual delivery times and monthly value of overdue orders.
Chairperson	Chief Operating Officer
Members	Operations Manager, Regional Managers, Warehouse Managers, Director of Sales, Administrator I, Administrative Assistant to COO

Summary of Strategy Results

1. MCE Operations continues to track all overdue orders. At the end of fiscal year 2018 overdue orders were at 9.79% of total sales which is an increase compared to last quarter. This was due to one order MCE could not complete due to a failure from an vendor for over 900 stools. With staff shortages MCE anticipates this goal may trend in the wrong direction temporarily. Operations will continue to monitor and keep its focus on minimizing lead times for its customers. Overall, MCE is holding its own but may see delivery times continue to vary from one quarter to the next.

Performance Measures	Annually review the MCE Quick Ship product line based on customer requests and needs.
Chairperson	Operations Manager
Members	Director of Sales, Director of Marketing, Warehouse Managers, Plant Managers, Regional Managers, Cost Accountant

Summary of Strategy Results

1. June 2018 sales results for all Quick Ship items totaled **\$279,015.00**. This was a new MCE monthly Quick Ship sales record. An increase of \$116,626.00 over the previous record of \$162,389 which was set in October of FY 2013.

FY 2018 sales results for all Quick Ship items totaled **\$1,371,257.00**. This is also a new MCE record. An increase of \$38,131.00 over the previous record of \$1,333,126 which was set at the end of FY 16.

MCE continues to deliver Quick Ship products within 15 business days or less. Orders placed over the maximum quantity identified in the Quick Ship guidelines, even though not guaranteed to be delivered within 15 business days or less, are generally delivered within the same time frame.

The customer feedback to the Quality of MCE's Quick Ship products and quick delivery times have been overwhelmingly positive.

Objective #: 3.1.3	Use of technology to enhance customer service and satisfaction.
Strategy #: 3.1.3.1	Improve MCE's infrastructure to align all processes which provide enhanced internal and external customer service.
Performance Measures	Implement IT infrastructure by June 2020.
Chairperson	Chief Administrative Officer and IT Manager
Members	Director of Sales, Customer Service Manager, Director of Marketing, Warehouse Managers, Chief Financial Officer, Chief Operating Officer, Operations Manager, Regional Managers, MCE Staff

Summary of Strategy Results

1. MCE has decided to upgrade the current AS400. New hardware & software is being purchased.
2. Ongoing discussions continued between MCE and DPSCS procurement for acquisition of a new ERP system.

A new six month software maintenance agreement was initiated with INFOR.

Continue to repair the IT infrastructure throughout MCE.

Goal #: 4.1	To improve organizational excellence.	
Objective #: 4.1.1	By June 2019, establish and implement additional initiatives to improve teamwork and morale.	
Strategy #: 4.1.1.1	Identify opportunities to improve staff development.	
Performance Measures	Develop and implement a staff development and/or field training program.	
Chairpersons	Chief Development Officer	
Members	MCE Training Committee	

Summary of Strategy Results

1. On March 28th, the Training Committee met and voted to move forward with the implementation of “Job Shadow Days.”
2. A cross-training / job shadow program was approved for FY19. The program will begin implementation after July 1st and be monitored for effectiveness.

Objective #: 4.1.2	Continue and enhance opportunities to improve communications between headquarters and field staff.	
Strategy #: 4.1.2.1	Identify opportunities to improve communication between headquarters and field staff.	
Performance Measures	Explore opportunities to improve communications between headquarters and field staff.	
Chairperson	Director of Marketing	
Members	Chief Operating Officer, Operations Manager, Regional Managers, Plant Managers	

Summary of Strategy Results

1. The 2017 Training Needs Assessment revealed that communication training is a large interest for the agency. Training opportunities to enhance communication will be investigated.
2. Round three of the fireside chats will begin after July 1, 2018 and take the form of a town hall meeting.
3. The first MCE staff town halls will be held at the new Brock Bridge Road Warehouse.

Objective #: 4.1.3	Maintain ACA accreditation.
Strategy #: 4.1.3.1	Maintain ACA performance compliance annually.
Performance Measures	Maintain ACA accreditation.

Summary of Strategy Results

1. The MCE Graphics Division has recently completed an evaluation to improve quality and increase production at its silk screen department located in Graphics Shop # 149. Plant manager Steve Compton has recommended the purchasing of a new Automated Silk Screen Machine. This equipment is state-of-the-art. It is at par with the equipment that is being used by private industry. This purchase will not reduce MCE's need for inmate workers. Instead, it will allow MCE to train its Graphics team on current technology and equipment thus increasing their knowledge base and personal sense of accomplishment. Upon release, these inmate workers will be prepared for job opportunities in the silk screen industry that require the use of this technologically advanced equipment.

Currently, MCE has purchased or has put out to bid the following: for RCI Graphics Plant, No. 149; automated silk screen carousels, vacuum screen tables and a roll label printer. For Tag Plant, No. 119, MCE is evaluating Solo jet computerized printers for log tag production. MCE is reviewing requests from all of its business units for FY18.

2. Plant 115 installed a computerized panel saw at the end of March. All training has been completed and we will begin seeing the benefits immediately. MCE 119 Plant Manager, MCE Operations Manager, and COO visited a vendor location on 3/27/18 to evaluate the Solo Jet computerized digital tag printer. The printer is now approved and purchasing is processing the PO. We continue to review request from all of our business units for FY18.
3. MCE's inmate workers will be trained to input, program and run the refurbished and updated CNC equipment located at Plant # 146.
4. **Graphics software upgrade:** During the 4th Quarter, after more than a year of investigation, technical planning and procurement, the Adobe Creative Cloud software has been installed throughout all MCE Graphics Design areas. Mac computers were either upgraded to meet the minimum requirements, or they were replaced to create a platform for the Creative Cloud installation. This change has improved the Quality of MCE's Graphics product as well as its capability to communicate with MCE's Graphics customers using the most up to date and current software available to perform these functions on off-line computer work stations operated by its inmate work force. MCE inmate workers are being trained to use the newest version of the Adobe Creative Cloud, therefore increasing their employability upon release. The plan also included an upgrade for the Heidelberg Computer to Plate making equipment. Inmate workers employed in the MCE Graphics Shop # 140 pre-press area have the opportunity to train, work and experience real world modern Graphics processes by using the Adobe Creative Cloud and the Heidelberg Computer to Plate processing equipment. This specially designed program allows for annual upgrades using the Creative Cloud package without the use of a direct internet connection.
